ASSESSMENT

Oriana House, Inc., is required to abide by the PREA Standards for Community Confinement Agencies that were enacted in June 2012. Oriana House has an existing zero-tolerance policy and procedures. We would like to acknowledge the Oriana House, Inc. Research Department for creating the report and conducting a trend analysis on the data.

- There were eleven reported incidences of sexual abuse during 2021 calendar year.
- The agency continues to mandate training for all agency staff. Training is completed monthly on various PREA topics in each facility. The agency will continue to ensure that all new employees are trained on PREA standards.
- Updated memos are sent to all facility PREA Managers to assist with training staff and handling PREA allegations received. These memos are reviewed to clarify any questions raised in trainings or any policy revisions.
- Executive staff ensure that policies and procedures are regularly reviewed and updated. In addition, executive staff ensure that all PREA incidents are reviewed by a multi-disciplinary committee. Recommendations are reviewed for feasibility and applied to minimize risk for clients. Upon admission, clients are provided with a handbook informing them of their rights and options related to sexual assault, sexual abuse, sexual harassment, and/or retaliation. Clients are required to sign an acknowledgment that they received the necessary PREA information.
- As a result of the reported numbers of sexual abuse that occurred this year, the following preventative measures were put in place:
 - Piloting cameras in dormitory areas to deter incidents and creating a new policy that clients are not permitted to change in dormitories with cameras.
 - Re-evaluated camera angles and made adjustments to ensure better coverage of the area and placed additional cameras in a kitchen area
 - Provided additional training for staff on how to safely enter blind areas such as the freezer area
 - Provided additional staff training on trends in gang affiliations
 - Reviewed PREA Assessment to determine if any updates were needed at this time
 - Installed an enhanced communication tool to increase speed of client to staff communication
 - Conducted refresher trainings for all contractors and volunteers
 - Continued to provide a high level of required ethics trainings
