## Facility AUDIT FINDINGS

### Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

#### Number of standards exceeded:

0

#### Number of standards met:

41

#### Number of standards not met:

<b>INTERVIEWS</b>	
<b>Inmate/Resident/Detainee Interviews</b>	
<b>Random Inmate/Resident/Detainee Interviews</b>	
34. Enter the total number of <b>RANDOM INMATES/RESIDENTS/DETAINEES</b> who were interviewed:	6
35. Select which characteristics you considered when you selected <b>RANDOM INMATE/RESIDENT/DETAINEE</b> interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
36. How did you ensure your sample of <b>RANDOM INMATE/RESIDENT/DETAINEE</b> interviewees was geographically diverse?	The facility provided the auditor with a list of current residents. The list also identified residents that fit a targeted category.
37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No

<b>38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):</b>	Some targeted residents fit into more than one targeted category. In categories where there was more than one resident, only one was counted as a targeted resident. All residents in the targeted category were interviewed on all specialized (that applied) and random interview protocols.
<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	4
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

<b>42. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b>	The auditor questioned staff members on their experience in working with this targeted population. The staff members who have had experience discussed this with the auditor. No staff member reported currently housing a resident that fits this target group.

### Specialized Staff, Volunteers, and Contractor Interviews

Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.

<b>SITE REVIEW AND DOCUMENTATION SAMPLING</b>	
<b>Site Review</b>	
<p>PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.</p>	
<b>64. Did you have access to all areas of the facility?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>Was the site review an active, inquiring process that included the following:</b>	
<b>65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No

<b>66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b>	<input checked="" type="radio"/> Yes  <input type="radio"/> No
<b>67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes  <input type="radio"/> No
<b>68. Informal conversations with staff during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes  <input type="radio"/> No
<b>69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b>	<p>The auditor was given full access to the facility during the onsite visit. Agency administration and facility management escorted the auditor around the facility and opened every door for the auditor. The tour of the facility included all interior and perimeter areas. The auditor was able to observe the housing units, dorms, bathrooms, group rooms, dining room, staff offices, storage closets, and administration area. The auditor was able to have informal interaction with both staff and clients during the walk through and see how staff interacted with clients. The auditor used the resident phones to test the internal and external reporting options. The auditor reviewed electronic documentation during the onsite visit. This includes camera views and ORION resident database system.</p>
<b>Documentation Sampling</b>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>	

<p><b>70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>The auditor received documentation on the agency and facility prior to the onsite visit through PREA audit system. The auditor was also provided requested documentation during the onsite visit. The auditor reviewed electronic documentation during the onsite visit. This includes camera views and ORION resident database system.</p>
<p><b>SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY</b></p>	
<p><b>Sexual Abuse and Sexual Harassment Allegations and Investigations Overview</b></p>	
<p>Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.</p>

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

#### 74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted

115.211	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Oriana House has an agency wide zero tolerance policy. Policy 1080 mandates zero tolerance on all forms of sexual abuse and sexual harassment as defined by the Prison Rape Elimination Act of 2003 Community Confinement Standards. The policy requires each facility under the Oriana House umbrella to implement a systematic means of monitoring, identifying, reporting, and investigating employee and resident sexual misconduct in an effort to provide a safe environment. The policy includes definitions of prohibited behavior, sanctions for those found to have participated in sexual abuse or sexual harassment, and appropriate strategies to prevent, detect, and respond to allegations. These strategies include having adequate staffing levels, an electronic monitoring system, and educating both residents and staff on the agency’s zero tolerance policy and always to report an allegation.</p> <p>According to the agency’s table of organization, the agency wide PREA Coordinator is the agency’s PREA and Wellness Coordinator, and reports directly to the agency’s Vice President of Administration and Legal Counsel. During the onsite interview, she</p>

states she assists with implementing PREA strategies at each facility. She also develops the training curriculum for required monthly PREA training at each facility and provides facilities guidance and assistance in complying with the standards.

She is a Department of Justice Certified PREA Auditor and had extensive experience in interpreting the scope and intent of each standard. She indicated that she has enough time and authority to develop, implement, and oversee the agency's efforts to comply. The PREA Coordinator supervises each facility's PREA Compliance Manager. She states that 90% of her job duties are PREA related.

The job description for the PREA and Wellness Coordinator states her PREA responsibilities include:

- Develops and maintains Agency-wide PREA operating procedures; monitors responsibilities of each facility's PREA Manager; provides technical guidance, assistance, and feedback agency-wide to ensure compliance is met
- Serves as the primary contact and resource for management on PREA-related inquiries and procedural questions
- Monitors and provides PREA-related program services, educational material, and training to facility PREA Managers and staff. Oversees the development of educational materials, staff guides, and education to residents regarding PREA procedures and reporting.
- Assist the VP of Administration and Legal Counsel with responding and submitting PREA reports to regulatory bodies regarding PREA-related issues
- Reports to the State's Intelligrants System regarding PREA incidents in an accurate and timely manner
- Submits quarterly reports to the Ohio Department of Rehabilitation and Correction (ODRC) in an accurate and timely manner
- Assists facilities' PREA Managers with PREA audit preparation including, but not limited to: completing facility walkthroughs, conducting employee and resident interviews and training, completing PREA assessments and questionnaire, and submitting audit documentation and assessments to the PREA auditor assigned to the facility

The auditor interviewed the VP of Administration and Legal Counsel. She states that she has full confidence in the PREA Coordinator and provides her the support and assistance when needed to ensure each facility is in compliance with the standards. She states that she is still involved in determining the outcome of administrative investigations and is a part of the SART review. She states that 20% of her responsibilities include PREA compliance.

The PREA Manager is the facility's Program Administrator. The Program Administrator reports directly to the PREA Coordinator for anything related to complying with the PREA standards. The auditor was able to review the Program Administrator's job description, which includes:

- Conducting quality assurance monitoring for PREA standards

	<ul style="list-style-type: none"> <li>• Ensuring facility walkthroughs in order to address any safety issues</li> <li>• Overseeing the day-to-day PREA facility issues</li> <li>• Ensures staff meet PREA training requirements</li> </ul> <p>The Program Administrator was promoted to this position in late 2024; however, has been with the agency for several years. She is familiar with the PREA standards, and as a former CQI Specialist, conducts checks to ensure compliance. The Program Administrator states that her specific job duties related to the standards include reviewing PREA screenings, retaliation monitoring, and ensuring compliance with PREA training/education for staff and residents. She oversees general facility performance and integrity with documentation.</p> <p>Review:</p> <p>Policy 1080</p> <p>Program Administrator job description</p> <p>PREA and Wellness Coordinator job description</p> <p>Agency table of organization</p> <p>Interview with PREA Coordinator</p> <p>Interview with VP of Administration and Legal Counsel</p> <p>Interview with Program Administrator</p>

115.212	Contracting with other entities for the confinement of residents
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	N/A: The PREA Coordinator reports to the auditor that the agency is a private not for profit agency and does not contract with other facilities to house offenders on behalf of the Oriana House.

115.213	Supervision and monitoring
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	Agency policy 1080 requires each Oriana House facility to develop a staffing plan that addresses the physical layout of the facility, adequate staffing levels,

composition of resident population, prevalence of substantiated and unsubstantiated allegations of sexual abuse, other relevant factors, and deviations to the staffing plan. The policy requires the plan to be reviewed on an annual basis and assess the effectiveness of the plan, prevailing staffing patterns, the deployment of monitoring systems and other monitoring technologies, and resources to ensure adequate staffing levels.

The agency provided the auditor with its most recent staffing plan for the Residential Institution Probation Program (RCC), along with the annual review report. The staffing plan includes:

**Physical Layout:**

RCC is a three-story masonry building located in Akron, Ohio. The facility is designed to house 63 female offenders. The facility has twelve dorms, and each dorm has beds that have been identified for residents that are assessed as being more vulnerable to abuse.

**Composition of Resident Population:**

The facility is currently operating with an average population of 43 residents, with the average age range between 22–63 years old. The average length of stay is 119 days. The staffing plan was based on the facility housing 63 residents. The facility houses residents that are classified as Halfway House, Employment Placement, Work Release, Parolee, Transitional Shelter Program, Transitional Control, and Treatment Transfer.

**Prevalence of Substantiated and Unsubstantiated Incidents of Sexual Abuse:**

During 2024, the facility had zero substantiated incidents of sexual abuse and zero unsubstantiated incidents of sexual abuse. The facility would conduct a review of any substantiated and unsubstantiated allegations of sexual abuse to identify any trends that would warrant any facility or programmatic changes to the staffing plan.

**Any other relevant factors:**

No additional relevant factors to consider.

**Adequate Staffing;**

The RCC facility has created a set staffing pattern to allow appropriate staff coverage and client supervision. Each shift has minimum staffing requirement that needs to be met in order for the prior shift to leave their designated posts. The minimum staffing requirements are as follows:

- 1st shift from 7am to 3pm: 2 Resident Supervisors
- 2nd shift from 3pm to 11pm: 2 Resident Supervisors
- 3rd shift from 11pm-7am: 2 Resident Supervisors

It is the policy of Oriana House (policy 3002), that facilities be staffed to maximize the use of personnel in conjunction with the needs of the residents, including how best to protect residents against sexual abuse.

Each time the facility's staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. The facility has not deviated from its staffing plan.

**Video Monitoring System and Other Monitoring Technologies:**

The facility has sixteen cameras strategically placed throughout the interior (12) and exterior (4) of the facility, with one camera that monitors enhanced searches viewable only by leadership and Internal Affairs. Ten cameras are classified as fisheye and are mounted in the dorm rooms. The cameras in the dorm rooms record to a separate server, and access to this footage is limited. Resident Supervisors are required to monitor the cameras daily on each shift. The staff will review camera footage and document the results. Documentation is entered into ORION database system and is reviewed by the Lead Resident Supervisors, who uses a quality assurance system to ensure accuracy and address concerns or issues documented. All cameras are controlled and viewed from the Main Post. The Program Administrators, Facility leadership have laptops and can access the system remotely as well.

In addition to cameras, the facility has one microphone attached to the DVR to record audio the main post, and twenty-six observation mirrors throughout the facility. All exterior door of the facility are alarmed and secured by staff. Staff offices are not under camera surveillance except for the medication room. Blind spots were previously identified in staff offices and dorms rooms. Observation mirrors are included in all areas to minimize blind spots.

Security checks are conducted by resident supervisor staff and shift supervisors. The staffing plan requires three whereabouts checks per shift. Whereabout checks require the staff members to visually identify a resident and document on a form that the resident was seen. Residents that have been identified as being vulnerable, abusive, or have mental health issues are required to have six whereabouts checks per shift. Along with whereabouts checks, security staff will also conduct circulations at minimum three times per hour. Circulations are complete facility walk-throughs. Staff will conduct more frequent circulations in designated blind spot areas.

The facility uses available resources to commit to ensure adequate staffing levels.

The annual staffing plan is completed annually by the Program Administrator. The leadership team will review the staffing plan and address any recommendations.

115.215	Limits to cross-gender viewing and searches
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>The agency's search procedures are outlined in agency policy 8089. The policy states that strip searches and body cavity searches for residents will only be conducted with the prior approval of the President/Chief Executive Officer or designee. The searches are limited to the staff member conducting the search and the resident being searched. Should a search be authorized, the following conditions will apply:</p> <ul style="list-style-type: none"> <li>• A body cavity search must only be conducted under sanitary conditions by medical personnel. A strip search must only be conducted by same gender staff and with two staff members present. A resident who is under the jurisdiction of the FBOP can only have a strip or body cavity search by medical personnel or law enforcement.</li> <li>• The strip search and/or body cavity search must be conducted in a manner and in a location that permits only the person or person who are physically conducting the search and the person who is being searched to observe the search.</li> <li>• A strip search and/or body cavity search must be conducted in a professional manner that preserves the dignity of the person searched to the highest degree possible.</li> <li>• At the completion of a strip search and/or body cavity search, the staff member who conducted the search must document in the client log the date and time of the approval, the authorized person who granted the approval, the time and time of the search and all the findings.</li> </ul> <p>The policy states the facility has the right to conduct reasonable searches of</p>

persons, packages, and property. A pat search will be conducted on all residents entering the facility and whenever a resident is suspected of possessing contraband in the facility. A pat search will only be conducted by a staff member of the same gender in a professional and respectful manner. Searches will be conducted in the line of the security camera, if searches in front of a camera are not possible, a witness must be present and documentation in ORION is required. When conducted a pat search, staff must:

- Allow only one resident in the designated pat search area at a time
- Verbally describe the pat down search steps to the resident using a firm, fair, and empathetic tone of voice
- Instruct the resident to remove all outer clothing to be searched so that the resident is wearing one layer of street clothes
- Instruct the resident to empty all pockets in clothing and place the contents in a designated area
- Instruct the resident to untuck his/her shirt
- Conduct an inspection of the resident's mouth, looking above and below the tongue and in the cheeks. Instruct the resident to open wide and move their tongue around to ensure that no contraband is located within their mouth
- Complete a metal detection search on the resident. Have the resident stand with legs open and arms up. With the metal detector, swipe the back of the neck area, across both arms, down the back, under both arms, down both sides, down the outside of each leg and inside of each leg. Step to either side of the resident and follow the same procedure for the front of the body. Continue the search and pat down until the resident is able to be screened with a metal detector without an alert
- Instruct the resident to place his/her hands on the wall, and to spread feet on the floor more than shoulder-width apart. Instruct the resident to take a step backwards while keeping their hand on the wall. The resident's feet should be far enough back from the wall to make them off balance if they did not use the wall for support
- Position yourself in a protective stance with your dominant foot positioned inside the resident's foot and reposition your body throughout the pat down process to ensure you are always in a protective stance
- Start at the wrist, using both hands with thumbs touching, run your hands down the arm, over the resident's shoulder, around the collar, underneath the arm and down the side of the torso. Repeat the process on the other side
- Run your hands thoroughly and carefully over the resident's back
- Run your hand over the chest, abdomen, and stomach area
- Move your hands using your thumbs in between underwear and other layer around the resident's waistband
- Using the back of your hands, swipe horizontally across the resident's lower waistline
- Using both hands in a blade-like manner, vertically run your inside hand up the inside of the resident's leg up to the groin area. Using both hands, run your hands down the pant legs searching the entire leg down to the

ankle

- Ask the resident to sit down in a chair and remove their shoes and socks. Ask the resident to turn socks inside out and hand both shoes and socks to staff. Search both shoes and socks

During an enhanced pat search, policy states that residents are to remove all clothing except one layer of undergarments and will only be conducted by members of the same gender in a professional and respectful manner and on a random, scheduled, and/or for cause basis. When performing an enhanced pat down search, the staff member must follow these steps:

- Conducted by two staff members of the same gender as the resident
- Searches are conducted in a designed area that maintains the appropriate level of privacy
- Verbally describe the enhanced search steps to the resident using a firm, fair, and empathetic tone of voice
- Direct the resident to remove their clothing, one article at a time, via staff verbal cues in the following order- shoes, socks, shirts, pants, skirts, dresses (all clothing down to one layer of undergarments) and have the resident hand it to the staff member
- Direct the resident NOT to remove their undergarments
- Do not physically touch the resident when they are in their undergarments or their underwear
- Direct a resident to utilize their thumbs and go around the inside of the waistband and then show the inside of the waistband by flipping it outward without exposing their genitals
- Direct the resident to conduct a self-pat down of the genital and breast area. Observe and listen to this process for purposes of detecting hidden contraband
- Direct the resident to jump up and down several times and/or shake out each leg of the undergarment
- Direct the resident to show the bottoms of their feet and in between their toes

Oriana House policy 1080 specifies the pat search procedures for transgender and intersex residents. The policy does not allow for transgender/intersex residents to be searched for the sole purpose of determining a resident's genital

status. Searches are to be conducted in a professional and respectful manner and in the least intrusive manner possible. The agency will meet with a transgender/intersex resident before placement and determine the gender of the staff that will conduct searches. Each determination will be done on a case-by case basis. A dual search (one male staff and one female staff) of a transgender/intersex resident is strictly prohibited. All searches of a transgender resident are required to be documented in the agency's resident database system.

The facility has installed a body scanner since the last PREA audit. Policy 8089

states that all residents entering the facility must go through the body scanner. If the body scanner alerts to a suspicious area:

- Staff will investigate further, including asking the resident to remove items if identifiable
- If staff cannot identify the source of the alert, they may initiate an enhanced search

Body scanner images are used to minimize invasive searches. Staff are trained that female staff cannot conduct physical pat downs on male residents. However, female staff may assist with directing or observing during visual inspections tied to the body scanner.

The auditor watched a pat search while at the onsite visit. The search was conducted in accordance with agency policy 8089. In the pat search area are posted notices of the expected steps for a pat search. Residents also sign a Search of Person Acknowledgement. The acknowledgement form list what is to be expected for pat and enhanced pat searches, when searches may be conducted, and refusal of searches can be cause for termination.

The residents, interviewed during the onsite visit, describe their pat searches as generally routine and reported that staff clearly explained the procedures, particularly during enhanced pat searches. The residents state that during orientation group, they watch a video that reviews the pat search process and what they can expect during any type of search. Some residents even pointed out that there are posters where searches take place that also explain the process. The residents report that mostly female staff work as Resident Supervisors, and no resident interviewed reported being searched by a male staff member.

The facility provided the training video and PowerPoint presentation provided to staff who are responsible for conducting pat searches. The auditor was able to view the video and PowerPoint. How to Conduct Pat Downs, Enhanced Searches, and Visual Searches training is provided to staff annually. This training includes:

- Proper pat search techniques
- Handling transgender searches appropriately
- Ensuring resident dignity during searches

The auditor also reviewed staff training completions sheets for searches.

Resident supervisor staff from all three shifts were interviewed during the onsite visit. The staff report that During intake, residents are informed about what to expect, including that enhanced pat-downs may occur after body scanner alerts and that these searches are done down to undergarments only, with no physical contact at that stage. Residents are told that if they ever feel uncomfortable, they should leave the search room and report it immediately. They report that they have received proper search training during orientation and again during on the job training. Staff report that transgender and cross gender searches were a part of the

training curriculum. The staff report they do not have practice experience conducting transgender searches; however, feel confident that they could perform the search professionally and respectfully.

The facility allows residents to shower, perform bodily functions, and dress in areas not viewable to staff. The facility has a restroom in each of the housing units for residents to be able to shower and use the toilets. Policy 1080 requires all staff to announce their presence when entering an area where residents shower, perform bodily functions, and change clothing. All non-medical staff are prohibited from viewing a resident's breast, buttocks, or genitalia except in exigent circumstances or when such viewing is incidental to routine security checks.

The facility requires staff members to document anytime there is any cross-gender incidental viewing incidents. The facility provided the auditor with documentation of incidental viewing from the last twelve months. All incidental viewings are reviewed to ensure incidents were not related to sexual misconduct.

Residents are housed on the second and third floors and each floor has two bathrooms. The bathroom has a solid door at the entrance. There are two toilet stalls with custom made doors that allow for privacy but also visibility for security staff. There are three sinks with mirrors above. The shower area is at the back of the bathroom. There are two shower stalls, one on the right and one on the left, with a middle area that is open to the bathroom. Upon entering the bathroom, one cannot see into the showers unless they walk into the middle area. There are shower curtains to cover each shower stall. There is a private single use bathroom next to the main post that is used for urinalysis and enhanced pat searches. If requested, transgender/intersex clients would have use of this private bathroom.

Ten residents were interviewed during the onsite visit. The residents report that male staff have never entered the bathroom. The bathroom is safe and private; however, one resident complained that the layout of the showers allows for easy visibility between users. The showers face each other with just a shower curtain dividing them. They state that they have never experienced an incident where male staff have seen them in a state of undress, and all male staff announce themselves when entering the floor and again if they enter a specific dorm.

The agency has implemented a policy addressing the proper housing, search, and showering of any transgender or intersex resident. A transgender or intersex resident would be offered private shower times. Facility leadership would consult with a transgender resident before identifying what gender staff would conduct searches and UDS. The auditor spoke to the PREA Coordinator and the Program Administrator on the process of addressing the needs of a transgender resident before placement. The PREA Coordinator state the agency will convene the Transgender Review Committee before placement in order to identify which Oriana House operated facility will be best for the safety, security, and manageability of the residents. The committee will provide options for providing private shower times, dorm and bed placement, and an appropriate case manager.

The facility did not house a transgender or intersex resident during the onsite visit.

115.216	Residents with disabilities and residents who are limited English proficient
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Policy 8004 states that Oriana House facilities must ensure that all residents understand the program rules, regulations, and guidelines. This includes ensuring that residents who have disabilities and are limited English proficient have equal opportunity to participate and benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.</p> <p>The agency provided the auditor with the PREA Plan to Assist Residents with Disabilities. The plan states that at intake a resident will be asked to indicate how he/she communicates most effectively, if he/she has a language barrier, literacy issue, and/or sensory impairment. If such barrier exists, assistance shall be provided to the resident by a staff member or other qualified person. The assistance shall be provided at no cost to the resident. Assistance can take the form of closed caption videos, closed caption videos in Spanish, auxiliary items for residents who may be deaf/hard of hearing or blind/seeing impaired, and interpreter services. Staff are required to read the agency's Guide for Client Sexual Abuse and Sexual Harassment Prevention to each resident at intake.</p>

The policy also states:

- Telecommunications device for the deaf (TDD), shall be provided as needed with no cost to residents, family members, and/or significant others. Mobile units are stationed at the Administrative Office and the Detox facility. The Admissions Manager, or designee, will coordinate with the Communications Specialist to install the unit at the requested facility
- If an interpreter is needed for continuing case management services, the Program Manager or designee should utilize the contact list for these services
- When a translator (i.e., Spanish, Vietnamese, etc.) is needed for prospective residents, the Admissions Manager or designee will make arrangements through The International Institute
- Once a resident is placed in a program, a Program Manager or designee should arrange for ongoing services
- The Program Manager/designee in the facility where the resident is placed can utilize the contact list during standard business hours and off-hours
- There are no fees to residents, family members, and/or significant others with regard to language barrier/literacy services. The Agency has signed agreements and/or billing guidelines set up with the contacts listed
- Should an employee offer/be directed to provide in-house services, his/her supervisor must authorize him/her to leave his/her regular duties during the time in which he/she is interpreting
- Any request by a resident to have a family member or friend interpret, following the Agency's offer to provide an interpreter, must be documented in the resident's file. The resident's request will be honored unless the Admissions Manager and/or facility's Program Manager feels the person the resident is requesting is not sufficiently qualified and, in such cases, must provide the resident an interpreter from the contact list. Documentation must include a written statement signed by the resident

The policy does not allow for the use of resident interpreters unless circumstances are such as where an extended delay in interpretation could compromise a resident's safety, the performance of first-responder duties, or the investigation of the resident's allegation of sexual abuse or sexual harassment. If a resident interpreter or reader is used, this must be documented in a resident log.

The auditor was given the materials given to residents during intake. All material provided is at a 9th grade reading level, and all residents must read a passage to ensure that they are capable of reading all provided materials and instructions.

Throughout the facility, PREA information is posted in both in English and Spanish.

The auditor spoke with staff about their experiences working with residents who have limited English proficiency, are deaf or hard of hearing, blind or have low vision, or have cognitive, mental, or physical disabilities. Staff shared that interpreters are requested when needed, especially for case management meetings.

When an interpreter isn't immediately available, staff may use tablets with Google Translate as a supplemental tool, though they acknowledged that translation accuracy varies depending on the language. In situations where no interpreter is accessible, staff will use written communication or speak in simplified English. Most staff reported limited experience working with residents who do not speak English at all; instead, they typically work with individuals for whom English is a second language. These residents often speak broken English but can generally navigate the program with patience and small adjustments from staff. For residents who disclose limited reading or writing skills, staff provide extra support during orientation, offer one-on-one guidance, and explain things at a slower pace. These residents may also receive more frequent check-ins and added support from caseworkers to help ensure their understanding.

The auditor interviewed the Cog Specialist responsible for providing PREA education during orientation. He reports that in addition to showing the PREA video, he will verbally reinforce the information by reading through the material with the residents and encouraging residents to come to any staff member privately if they had any questions or concerns. He states that providing the information orally, written, and visually supports better comprehension, especially for residents with limited reading skills or language barriers.

Resident Supervisors are responsible for providing residents with a handbook upon intake. The RS staff report that they ensure that all residents get a handbook and sign acknowledgement of receiving the handbook.

The auditor interviewed any resident that identified as having a reading or cognitive disability, physical disability, or limited English proficient. No resident in this targeted category were in need of any additional services in order to benefit from the agency's effort to prevent, detect, or respond to sexual abuse or sexual harassment. All residents interviewed were capable of describing the facility's zero tolerance policy, reporting options, and services that are provided free of charge to any resident that request such services.

	<b>Auditor Discussion</b>
	<p>Oriana House policy 1080 prohibits hiring or promoting anyone who may have contact with the residents and prohibits the services of any contractor who may have contact with residents who: has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted or engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent.</p> <p>Policy 3006 requires the agency to conduct a background check for all prospective employees, including temporary employees, independent contractors, volunteers, and student interns or required the contractor, vendor, volunteer to provide a background check. Record checks are completed every five years. The auditor interviewed the Director of Human Resources during the onsite visit. The Director reports that Oriana House now owns and operates its own fingerprint machines and are capable of conducting their own background checks. She states that background rechecks are completed every five years by building, and the agency uses an online third party vendor to complete these checks.</p> <p>All employees, independent contractors, volunteers, and interns are required by policy 3009 to immediately report to their supervisor any arrests, citations, and complaints to professional licensing boards. Employees document this continued affirmation during annual personnel evaluations. All successful applicants are notified of the PREA background check requirement and that any omission regarding sexual misconduct is grounds for termination. Employees are required to document their adherence to this policy.</p> <p>The Director also reports the Human Resource Department conducts referral checks for all new hires and specifically documents whether or not a potential employee has been found to have substantially sexually abused an offender or resigned during a pending investigation of an allegation of sexual abuse.</p> <p>When reviewing the promotion process, the Director of Human Resources reports that the Human Resource Department will review the personnel file, specifically any disciplinary action, of any employee who is up for a promotion. The agency has developed a form that indicates in red that the Human Resource Department must check discipline records for anything related to PREA. This form is then placed in the employee's file. This information is reported to the hiring/promotion committee before a decision is made.</p> <p>The agency documents any request from outside confinement facilities requesting PREA reference checks on potential employees.</p> <p>During the onsite visit, the Human Resources Director reviewed the hiring</p>

	<p>and promotion process. The Director states that during the hiring process, applicants are questioned about criminal or administrative sexual misconduct allegations on the application, during the telephone interview, and during the in person interview. Once hired, all new employees are provided the agency's zero tolerance policy 1080 and continued affirmation policy 3009 to disclose misconduct. Employees document their acknowledgment of this annually. The Director reports that to be eligible for a promotion, all interested employees must submit a letter of interest to the Human Resource Department. The department will review the employees file, including disciplinary actions. Employees with disciplinary action that includes sexual misconduct are not eligible for promotion.</p> <p>She reports that while there are no new changes to the hiring process, she has a new supervisor. She reports that the change allows her to attend executive meetings, have a seat at the table for decision-making, and provide input on major policies. The Director states that these changes allows her to voice concerns in areas related to PREA such as trends in staffing levels, training, and staff sexual misconduct allegations.</p> <p>The auditor was able to review documentation that demonstrated compliance with each provision of the standard.</p> <p>Review:</p> <p>Policy 1080</p> <p>Policy 3004</p> <p>Policy 3006</p> <p>Policy 3009</p> <p>Employee files</p> <p>Continued affirmation</p> <p>Prior institutional referral</p> <p>Applicant interview questions</p> <p>Background checks</p> <p>Promotion documentation</p>

	<p>The facility has not acquired any new facility, nor is it planning any substantial expansion or modification to the facility. The facility is currently in the middle of renovations to the resident bathroom. The changes include creating single use shower stalls with appropriate shower curtains. This change will improve resident privacy and safety while in the bathroom.</p> <p>The facility has added six cameras since the last audit. All changes made to the facility were able to increase the facility's ability to prevent, detect, and respond to incidents of sexual abuse and sexual harassment. 115.221	Evidence protocol and forensic medical examinations
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>The agency has a policy that requires all allegations of sexual abuse and sexual harassment, regardless of how it was reported, to be administratively and/or criminally investigated. All administrative investigations will be investigated by a specialized trained investigator. All allegations that appear to be criminal will be referred to the Akron Police Department, who have the legal authority to conduct such investigations.</p> <p>The agency has shown the auditor a request to enter into a formal MOU with the Akron Police Department to investigate any allegation of criminal sexual abuse and/or sexual harassment at RCC. The deputy chief of police has sent the agency an email where he agrees that the department has jurisdiction to investigate any criminal activity, and has and will continue to responded to a request for a criminal investigation for Oriana House, Inc. facilities in the Akron city limits. The agency has requested the criminally investigative agency to:</p> <ul style="list-style-type: none"> <li>• Use a uniform evidence protocol that, if necessary, has been adapted from or based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examination, Adults/Adolescents," or</li> </ul>

- similarly comprehensive and authoritative protocol developed after 2011
- Investigators shall have specialized training in conducting investigations in confinement settings
  - Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data
  - Investigators shall interview victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving suspected perpetrators
  - Polygraph examination or other truth-telling device shall not be required as a condition for proceeding with the investigation of such an allegation
  - Investigation shall be documented in a written report that contains a thorough description of physical testimonial and documentary evidence with attached copies of all evidence where feasible.
  - Substantiate allegations of conduct that appears to be criminal shall be referred to prosecution
  - The departure of the alleged victim or abuser from Oriana House facilities shall not provide a basis for terminating an investigation

Administrative investigations will be conducted by trained agency investigators. The agency has provided the auditor with training certificates for the administrative investigators.

The facility has a MOU with Rape Crisis Center of Medina and Summit Counties. The MOU states that the center will agree to:

- Accompanying and supporting the victim through the forensic examination process
- Accompanying and supporting the victim through the investigatory interview
- Provide emotional and crisis support
- Provide information on community resources
- Provide psycho-educational support groups as needed
- Provide follow-up (legal advocacy and face-to-face crisis intervention services)
- Provide flyers and brochures with organization contact information

The director of the center, who confirmed the services, states the agency would provide to residents and that all services were free of charge. She states that the services would include crisis intervention, advocacy, individual and group counseling, and services that are available to male, female, and transgender individuals.

The auditor was able to interview with victim support person during the onsite visit. The Clinical Coordinator serves as the victim support person when needed. She states that she will receive a referral from either the PREA Coordinator or the Program Administrator if a resident request the services of an emotional support person. She states that her role as a support person revolves around providing

	<p>emotional support and conducting weekly or bi-weekly check-ins for 90 days following a report.</p> <p>The PREA Coordinator states that every effort is made to provide a victim advocate from the local rape crisis agency, Hope and Healing. If an advocate is unavailable or the resident prefers, Oriana House trained staff may temporarily step into that advocacy role. Training for the victim support role primarily occurs through the staff's regular clinical supervision and required continuing education for their licensure. The victim support staff have trauma specific training, including Eye Movement Desensitization and Reprocessing (EDMR) and trauma informed care.</p> <p>Review:</p> <p>Policy 1080</p> <p>Rape Crisis Center of Medina and Summit Counties MOU</p> <p>Akron Police Department MOU request</p> <p>Akron Police Department email</p> <p>Interview with SANE Nursing Coordinator</p> <p>Interview of Rape Crisis Center representative</p> <p>Training certificates</p> <p>Investigation reports</p>

115.222	Policies to ensure referrals of allegations for investigations
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Oriana House policy 1080 requires the Sexual Abuse Response Team to refer all allegations of sexual abuse to law enforcement promptly. An administrative investigation will be conducted at the conclusion of a criminal investigation.</p> <p>The auditor reviewed the agency's website (<a href="http://www.orianahouse.org/accreditations/prea/prea.php">www.orianahouse.org/accreditations/prea/prea.php</a>) to ensure that the investigative policy for PREA allegations was posted. The website advises that all allegations of sexual abuse will be referred to the local legal authority for a criminal investigation. The website also gives notice that all allegations (criminal or not) will have an administrative investigation conducted by a trained investigator. Sexual abuse allegations will receive an administrative investigation at the conclusion of a criminal investigation. The criminal investigatory agency will make referral to the local prosecutor for any allegation deemed appropriate according to their agency policy.</p>

	<p>The auditor reviewed the following investigations with administrative investigators during the onsite visit:</p> <p>Investigation #1: The facility received a report from a resident alleging resident-to-resident sexual harassment. The allegation was referred for an administrative investigation. The investigators report that there was enough evidence to substantiate the allegation. The allegation was not referred for a criminal investigation because the behavior did not meet the definition of criminal behavior.</p> <p>Investigation #2: During an intake of a resident, she reported abuse from another resident during a previous stay at the facility. The resident reports that she reported the incident at the time of the incident. The facility had no record of the resident's allegation, and initiated an administrative investigation. The investigators report that the investigation uncovered that the allegation may be retaliatory, and determined the allegation to be unsubstantiated.</p> <p>Review:</p> <p>Policy 1080</p> <p>Agency website</p> <p>Investigation report</p> <p>Interview with administrative investigators</p>

115.231	Employee training
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Agency policy 1080 requires all staff to be trained on the agency's zero tolerance policies and procedures relative to resident sexual abuse and sexual harassment. This training is required to be given to all employees every two years and provide refresher information on the current sexual harassment and abuse policies and procedures during the year full training is not offered.</p> <p>The agency provided training prior to starting at facility and again annually on:</p> <ul style="list-style-type: none"> <li>• Monitoring for safety</li> <li>• Client privacy</li> <li>• Client support services</li> <li>• Completing an incident report</li> <li>• Encouraging a client report</li> <li>• Effects of abuse</li> <li>• First responder duties</li> </ul>

- Helping clients who primarily speak another language
- Investigations
- PREA basics
- Professional communication and boundaries
- Reporting knowledge, suspicion, or information
- Ways resident can report
- Gender specific training

The training sufficiently covers section a.1-10 of standard 115.231. After completing training, the staff member documents their training by signing a sign-in sheet.

In addition to the required training dictated by the standard, the facility also provides training on the following related topics:

- Policy and procedure
- Code of Ethics
- Client civil rights and grievance procedures
- Employee discipline
- Harassment
- Relationships with residents, former residents, and notification requirements
- Notifying supervision of arrest, citation, or complaints to professional licensing board

The agency completes refresher training during monthly staff meetings. Every month, each facility conducts a training on a PREA subject directed by the agency. Staff are able to receive the refresher training through monthly staff meetings or online through the agency's Learning Management System.

The staff have available a PREA Staff Guide Book that is located at all post desk. The auditor reviewed the contents of the book. It includes:

- First responder duties
- Reporting duties
- Coordinated respond plan with contact names and phone numbers
- PREA policies and procedures
- Assisting residents with disabilities
- Transgender safety plans
- Medical response plan
- PREA definitions
- Staffing plan
- Logging cross-gender views

The Human Resource Director reports that the agency has made some changes to how they provide training to staff. These changes include having more in person training days. She states that the agency cross trains all staff concerning PREA gender-specific topics because staff can work with male and/or female residents (in

	<p>various Oriana House operated facilities).</p> <p>Staff from security, programming, and management were interviewed and questioned on their training and understanding of the PREA standards. The staff report that during onboarding, and ongoing refresher training, the agency provides them information about the resident's rights under the PREA standards. They state that ongoing training is usually assigned electronically and tracked to ensure completion. Some staff members also mentioned receiving refresher training during monthly staff meetings. While one night shift staff member initially wasn't familiar with the term "PREA," they recalled that posters were displayed throughout the building explaining expectations, and that training had included content related to reporting abuse, first responder duties, and sexual harassment prevention. Another new staff member mentioned that although much of their training involved on-the-job learning, their coworkers were helpful in explaining expectations. The PREA information, while part of academy and computer modules, was supplemented by coworker guidance.</p> <p>The auditor was provided training sign-in sheets to verify training - onboarding and monthly refresher.</p> <p>Review:</p> <p>Policy 1080</p> <p>PREA training PowerPoint</p> <p>Training records</p> <p>Interview with Human Resource Director</p> <p>Interview with Program Administrator</p> <p>Interview with staff</p>

	<p><b>Auditor Discussion</b></p> <p>Oriana House policy 1080 requires all contractors and volunteers who have contact with residents receive training on the agency's policies and procedures relating to sexual abuse and sexual harassment. The level and type of training provided will be based on the services provided and amount of contact with the residents. Minimally, all contractors and volunteers will be informed of the agency's policies and how to report allegations.</p> <p>The PREA Coordinator discussed the agency's system for determining the type of</p>

	<p>training required of a contractor or volunteer.</p> <p>Level 1: Requires a 3-hour training. For non-Oriana House employees who are in the residential facility daily and have unsupervised daily contact with clients. Example: ARAMARK maintenance and kitchen staff in Cleveland. They are issued a Level 1 Training Verification Card and must check the "Training Verification Card" box and circle "Level 1" when signing in.</p> <p>Level 2: Requires a 30-minute training. For non-Oriana House employees who are in facilities regularly and have unsupervised client contact. Examples: independent contractors, vendors, volunteers, group facilitators, regular 12-step leads, Cuyahoga Vending, ACE Security Systems. They are issued a Level 2 Training Verification Card and must check the "Training Verification Card" box and circle "Level 2" when signing in.</p> <p>Level 3: No classroom training—requires reading the PREA Acknowledgement Form every time they sign in. For individuals doing short-term or one-time work (e.g., flooring contractors, painters, student nurses). Must check the "PREA Acknowledgement" box and sign. Optionally, they can attend Level 2 training instead.</p> <p>Level 4: No PREA training required. For individuals who are 100% accompanied by staff at all times. Examples: facility tours, fire inspectors, K-9 units, UPS delivery. Must check the "100% Accompanied by Staff" box when signing in.</p> <p>Level 5: Emergency-only personnel. Includes law enforcement officers making arrests, EMTs responding to emergencies, or contractors handling floods, fires, etc. These individuals do not sign in on the log due to the emergency situation.</p> <p>The facility has a new electronic signature system. The system will alert the staff member working the post desk the level assigned to each contractor or volunteer.</p> <p>The facility provided the auditor with documentation of the training provided to contractors and volunteers, an expiation of the level system, and signed acknowledgements of contractors receiving the training.</p> <p>Review:</p> <p>Policy 1080</p> <p>Contractor/volunteer training material</p> <p>PREA acknowledgement form</p> <p>Interview with PREA Coordinator</p>

<b>115.233</b>	<b>Resident education</b>
	<b>Auditor Overall Determination:</b> Meets Standard

### **Auditor Discussion**

Policy 8004 states that Oriana House facilities must ensure that all clients understand the program rules, regulations, and guidelines. This includes ensuring that clients who have disabilities and are limited English proficient have equal opportunity to participate and benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

Residents at RCC receive PREA information immediately during the facility intake process. The Resident Supervisor staff provide a handbook which includes PREA prevention guide, and each resident signs a verification form confirming receipt. The handbook informs residents that:

- Sexual activity between residents or between residents and staff are always prohibited
- There are multiple ways to report abuse
- False reporting may result in a sanction for falsification
- Crisis support is available and staff must assist residents who request rape crisis services
- Residents privacy rights are respected but subject to mandatory reporting laws
- Anti-discrimination protections apply, including based on actual or perceived gender identity

All residents, new or transfer, attend a mandatory orientation group. The orientation education includes:

- Agency zero tolerance policy
- Definitions
- Reporting options
  - verbal to any staff
  - Internal PREA hotline
  - External ODRC hotline
  - Submitting a PREA form
  - Written letter
  - Email
- Third-party reporting
- Retaliation protections
- Bad faith reporting
- Access to support services
- Special Considerations
  - Limited English proficiency
  - Deaf/hard of hearing
  - Blind/low vision
  - Cognitive/physical disabilities
- Search and security procedures

Materials provided to residents, in a language or manner that is relevant to them, includes:

- Oriana House PREA video
- Search and security video
- Optional PREA Resource Center video (available on resident tables)
- PREA orientation handout

Residents initial and sign forms verifying they received and understood the training.

During the onsite visit, the auditor noted various posters in English and Spanish throughout the facility. The posters provided information to residents, visitors, and staff on how to report allegations and phone numbers and address to reporting agencies. The facility also posts information on pat searches. The posters give a step by step explanation of the search process. The posters are in locations where residents are searched.

The auditor interviewed the Cog Specialist responsible for providing PREA education during orientation. He reports that in addition to showing the PREA video, he will verbally reinforce the information by reading through the material with the residents and encouraging residents to come to any staff member privately if they had any questions or concerns. He states that providing the information orally, written, and visually supports better comprehension, especially for residents with limited reading skills or language barriers.

See standard 115.216 for how the facility ensures residents with physical, mental, or cognitive disabilities or residents who are limited English proficient receive PREA education.

Residents interviewed during the onsite visit report receiving PREA information at intake and a more formal education during orientation group. The residents state that the staff showed two or three PREA videos which cover the zero tolerance policy, how to identify abuse, and how to report it. One resident stated that the videos show the difference between appropriate staff behavior and possible misconduct. The residents also mention the PREA poster around the building that have all important information should they need it at a later time.

<b>115.234</b>	<b>Specialized training: Investigations</b>
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Agency policy 1080 requires all administrative investigators to receive specialized training. The agency has three investigators as well as the PREA Coordinator. The PREA Coordinator and one investigator received in-person training from the Moss Group, while the other investigator received training from Bureau of Community Sanctions. The training from both agencies provided includes:</p> <ul style="list-style-type: none"> <li>• techniques for interviewing sexual abuse victims,</li> <li>• proper use of Miranda and Garity warnings,</li> <li>• evidence collection in a confinement setting,</li> <li>• required evidence to substantiate a case for administrative action or criminal referral</li> </ul> <p>The agency retains completion of training certificates as proof of training. The investigators receive refresher training on specialized investigator training.</p> <p>The auditor was able to review the curriculum and training material provided by the Moss Group and the Ohio Bureau of Community Sanctions. The training was appropriate to the requirements of this standard.</p> <p>The auditor interviewed both administrative investigators and the PREA Coordinator. All were able to discuss their training, and the PREA Coordinator participated in delivering training (she has a train the trainer certificate for administrative investigations) to new administrative investigators during the Ohio Bureau of Community Sanctions training. One investigator is a former police officers and has extensive experience in investigating crimes. The facility has a new administrative investigator who has a long history of working for the agency at various facilities.</p> <p>The other investigator has received the proper training and understands his role and responsibilities as an investigator. The investigators understand Garity; however, this is a private non-profit organization and Garity warnings do not apply.</p>

115.241	Screening for risk of victimization and abusiveness
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Policy 1080 states that all residents will be assessed for risk of victimization or abusiveness within 72-hours of arrival at the facility. This includes new intake or</p>

transfer residents. The Resident Supervisor will administer the initial risk screening instrument, while the caseworkers administer the rescreen or screen for cause, and considers the following:

- a. Whether the resident has a mental, physical, or developmental disability
- b. The age of the resident
- c. The physical build of the resident
- d. Whether the resident has a prior conviction for sex offenses against an adult or child
- e. Whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, gender non-conforming, or intersex
- f. Whether resident has previously experienced sexual victimization
- g. The residents own perception of vulnerability
- h. Prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse

The policy does not allow for residents to be disciplined for refusing to answer or not disclosing complete information to questions a, d, f, or g. The staff member is required to mark those responses as “refused to answer.”

The auditor was given a copy of the risk assessment instrument. The assessment not only documents the resident's answers to the required questions, but also identifies sources of additional information, areas of concern or other considerations, and reasons for a professional override to the score. After the screening is complete, the screener will score the instrument based on the resident’s answers. The resident can receive a classification of susceptible, highly susceptible, abusive, highly abusive, or no risk.

The initial risk assessment is completed by the Resident Supervisor staff. The staff state that they will document the information on a paper form and then transfer the answers to the ORION resident database system. The staff report they are trained to ask sensitive questions carefully. One staff reported that she was taught to not directly ask whether the resident has “ever been sexually assaulted,” but ask in a conversational but direct manner to increase the likelihood of honest answers.

Case managers report that they will complete the PREA reassessment screen or a rescreen for cause, such as a substantiated allegation. They report that case managers are required to see new residents on a weekly basis and will complete the reassessment prior to the resident phasing up after week four to ensure the rescreen is completed in a timely manner. The case managers also report that if a resident discloses a history of victimization, staff are expected to follow up with the Program Administrator for any required reporting or protective measures.

The Program Coordinator is required to conduct quality assurance checks to ensure

	<p>risk assessments are being completed as required by the standard. The facility provided the auditor with a risk assessment report. The report details:</p> <ul style="list-style-type: none"> <li>• Resident name</li> <li>• Intake or transfer</li> <li>• If transferred, from which facility</li> <li>• Intake date</li> <li>• Intake screen date</li> <li>• Intake screen classification</li> <li>• Staff who completed screen</li> <li>• Rescreen due date</li> <li>• Rescreen date</li> <li>• Rescreen classification</li> <li>• Staff who completed the rescreen</li> </ul> <p>Residents interviewed stated they remember having an assessment performed during intake. They state that staff explained the assessment, and most stated that they are familiar with the process due to being incarcerated at other facilities. No resident reported refusing to answer any of the questions.</p> <p>The assessments are kept in the agency's ORION database system, and access to this information is limited to clinical staff.</p> <p>Review:</p> <p>Policy 1080</p> <p>Risk assessments (initial and reassessments)</p> <p>Resident files</p> <p>Interview with RS Intake staff members</p> <p>Interview with Case managers</p> <p>Interview with Program Coordinator</p> <p>Interview with residents</p>

115.242	Use of screening information
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	Policy 1080 states that the screening information will be made available to appropriate staff to ensure that all housing, programming, and community assignments are given in a way to minimize the risk of the resident being sexually

victimized. The facility has specifically assigned dorms and beds for residents that have been identified as being highly susceptible or highly abusive. These specific beds are located in areas that are easily visible from the doorway of each room.

Programming staff will make every effort when scheduling groups not to place residents with opposing PREA statuses in the same group. The policy states when that is not possible, that the staff will monitor appearance and behavior and report any significant changes.

The policy states that residents with a highly susceptible or highly abusive PREA status will have increased whereabouts checks. Residents with no status or a status of susceptible or abusive receive three whereabouts checks per shift while residents with highly PREA statuses will receive six whereabouts checks per shift. Only the Program Manager or the Lead Resident Supervisor can remove a resident from the increased whereabouts checks.

During the onsite visit, the auditor was shown the whereabouts check sheet and verification of increased checks for those with PREA statuses. The auditor was also able to view the designated PREA rooms/beds. All residents entering the facility are on increased whereabouts watch during their first 48-hours in the facility. This allows the facility to monitor residents' acclimation to the facility, to adjust accommodation methods if necessary.

Oriana House policy 1080 also requires the facility to address the underlying reasons and motivations for susceptibility or abusiveness. The information from the screening will be used to develop targeted Individual Program Plan (IPP) goals and objectives to address the identified risk and needs assessment indications.

The Program Administrator and Operations Coordinator state that once a risk assessment is completed, the assessments are reviewed for discrepancies or for changes between the initial and the rescreening. When a resident is identified as highly susceptible or highly abusive, the information is:

- Noted on the assessment form
- Entered into ORION
- Used to determine increased whereabouts checks

Residents are also offered, if necessary, mental health, rape crisis, or victim supportive services.

Agency policy 8091 states the facility will make reasonable efforts to provide for the safety of residents identified as transgender or intersex. The agency will decide placement and programming assignments on a case-by-case basis to ensure the resident's health and safety, taking into consideration the resident's own views with respect to his or her own safety that is consistent with the agency's mission and security guidelines. The residents views will not be the sole determining factor, but will be given serious consideration. Once placed, the Transgender Review Committee will determine the appropriate procedures for pat down searches, urine

drug screens, and shower accommodations.

The agency has developed a plan to ensure the safety of transgender/intersex residents while in Oriana House facilities. In order to ensure placement decisions are on an individualized case-by-case basis, the facility will collect information that addresses the transgender resident's concerns in terms of safety - housing placement and programming, name, pronoun, shower, preference, and searches. The agency has just updated the Transgender Client Review Summary to include:

- Name of the facility
- Facility staff included on the review
- Resident's sexual orientation
- Resident's gender identity
- Safety concerns
- Preferred name
- Preferred pronouns
- Medication (gender-affirming medical treatment)
- Gender affirming surgery
- Length of time living as identified gender
- Housing gender preference
- Preference of shower accommodation
- Preference of gender or searches
- Risk assessment score

The PREA Coordinator reports that once the transgender assessment is completed, the facility will forward the results to the review committee. She reports that the resident's preferences will not be the sole determining factor for placement and handling but will be given serious consideration, along with the safety, security, and staffing of the facility. Once the review and placement decision is made, the facility will notify and prepare staff for the safe management of the resident. The facility has not housed a transgender resident during this audit cycle.

The auditor interviewed any resident that identified as lesbian or bisexual. All residents interviewed stated that they have not experienced any discrimination and did not feel as if they were placed in a housing unit or dorm based on their status. The residents reported feeling safe and being able to go directly to the Program Administrator if they felt threatened sexually or otherwise.

The auditor performed an internet search and did not find any reports of the agency or facility being a part of a lawsuit or consent decree.

	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Policy 1080 requires Oriana House to provide residents with the opportunity to report sexual abuse and sexual harassment, retaliation by other residents or employees for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to an incident of sexual abuse. The policy allows for residents to report anonymously and lists the following as ways a resident can report:</p> <ul style="list-style-type: none"> <li>• Verbally telling any Oriana House employee</li> <li>• Completing a Client Sexual Abuse/Harassment Reporting form (located in the resident handbook)</li> <li>• Oriana House website at <a href="http://www.orianahouse.org/contactus">www.orianahouse.org/contactus</a></li> <li>• Calling the Oriana House Client Sexual Abuse Hotline 330-258-1271 free of charge</li> <li>• Emailing <a href="mailto:SexualAbuseReporting@orianahouse.org">SexualAbuseReporting@orianahouse.org</a></li> <li>• Calling an outside third party hotline at 614-728-3399 free of charge</li> </ul> <p>Residents are allowed to have personal cell phones while at RCC. The residents can use these phones to make private, anonymous, or confidential reports to internal, external, or emotional support agencies. The residents also have access to facility phones. Phone calls are not usually monitored by staff. Residents are capable of making private calls when contacting attorneys or other confidential agencies where privacy is expected. Residents can also make reports through the mail system.</p> <p>Incoming and outgoing mail may be inspected for contraband, but all mail is opened</p>

only in the resident's presence. Residents are informed during orientation that they can send mail to outside agencies, including the PREA reporting agency or emotional supportive services, without being read by staff.

The auditor contacted the internal and external reporting numbers to ensure residents could make unimpeded contact to report allegations. An answering machine answers the agency hotline. The message on the machine reminds callers of the obligation of the facility to investigate all allegations and that there is no retaliation for reporting any incidents. The message request callers to leave as much detailed information about the incident, but if the caller wishes, they can remain anonymous. The outside reporting agency's hotline number is also answered by a machine. The message also requests the caller leave detailed information about the incident and that if they so choose, they can remain anonymous. The auditor received a return phone call from an agency administrative investigator on the same day the call was placed. The outside reporting hotline option is managed by the Ohio Bureau of Community Sanctions. The auditor received a return phone call from Sonya Dunlap, Assistant Chief, on the same day the request to the hotline was made. The call to the rape crisis hotline has selectable options for what type of support the caller needs, the auditor selected an office worker in order to discuss the services provided to the residents, if the services are free of charge, confidentiality of the information, and any mandated reporting responsibilities.

During intake, the residents are provided a handbook. The handbook outlines the agency's efforts to prevent, detect, report, and respond to allegations and incidents of sexual abuse and sexual harassment. The handbook provides definitions of sexual abuse and sexual harassment, and retaliation. Provides reporting options along with contact information for in-house and outside reporting agencies. The handbook outlines the investigative process, and multiple services available to victims free of charge. The information listed in the handbook is reinforced during orientation group, and during role clarification meeting with the resident's case manager. During orientation, residents three PREA videos that were produced by Oriana House. The videos educate residents on definitions, good faith/bad faith reporting, and ways to report (verbal, anonymous, third-party).

During the tour, the auditor noticed several postings in conspicuous places that listed reporting information for local, state, and national organizations. The information includes the name, phone number, and address for all organizations listed. Resident can also send mail to reporting agencies. Residents can also send mail while out in the community.

Most residents confirmed that they were provided PREA education at intake and/or during orientation sessions. This included:

- Watching videos explaining what PREA is.
- Reviewing definitions of sexual abuse and harassment.
- Being informed about their right to be free from sexual abuse, harassment, and retaliation

	<p>Residents report that they have access to personal cell phones or facility phones if they needed to report an allegation. Most residents reported that they feel comfortable reporting to staff and that staff will address the allegation appropriately. All residents interviewed report that they have the information needed to report PREA, and understand they have the right to report verbally, in writing, anonymously, and to an external agency.</p> <p>Staff received documentation that explains the process for reporting, including reporting privately. Staff report that they would immediately report allegations verbally to their direct supervisor, the Program Administrator, or to the PREA Coordinator. Staff report they also have the option of emailing their region's designated PREA email.</p> <p>The facility had two allegations in the past twelve months. One allegation was reported during intake and the other was verbally reported to staff.</p> <p>Review:</p> <p>Policy 1080</p> <p>Client Sexual Abuse and Sexual Harassment Reporting Form</p> <p>Resident handbook</p> <p>PREA information sheet</p> <p>Staff training curriculum</p> <p>PREA posters</p> <p>Agency website</p> <p>Reporting hotline numbers</p> <p>Interview with Administrative investigators</p> <p>Interview with staff</p> <p>Interview with residents</p> <p>Interview with PREA Coordinator</p> <p>Interview with Program Administrator</p> <p>Interview with external reporting agencies</p>

	<b>Auditor Discussion</b>

	<p>N/A: The PREA Coordinator advised the auditor that the agency does not have administrative procedures to address resident grievance regarding sexual abuse. The agency has an explicit policy and procedure (policy 1080: Resident Sexual Abuse and Sexual Harassment Prevention) that addresses all aspects of the agency's compliance with the PREA standards. The Coordinator states that should a resident file a grievance alleging sexual abuse or sexual harassment, the allegation will be investigated under agency policy 1080.</p> <p>Residents are informed of the reporting and investigation procedures during orientation group. This group also reviews the grievance process and grievable offenses.</p>

115.253	Resident access to outside confidential support services
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Oriana House policy 1080 requires each facility to provide residents with access to outside victim advocates for emotional support services related to sexual abuse by giving residents mailing addresses and telephone numbers of local, state, or national victim advocacy or rape crisis organizations, and by enabling reasonable communication between residents and these organizations, in as confidential manner as possible. Policy requires staff to notify residents, prior to giving them access, of the extent to which the communication will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.</p> <p>The facility has placed posters in English and Spanish around the building in conspicuous places that provide the telephone number and address to the local victim advocate and emotional supportive services agency. A review of the resident handbook shows a listing of the addresses and telephone numbers to local, state, and national victim advocate agencies.</p> <p>The facility has a MOU with Rape Crisis Center for Medina and Summit Counties. The MOU list that the center has agreed to: the following:</p> <ul style="list-style-type: none"> <li>• Provide emotional and crisis support</li> <li>• Provide a telephone number that any client can use to contact the center for emotional support</li> <li>• Provide an address that any client can send a letter to contact the center for emotional support</li> </ul> <p>The auditor received confirmation from the director of the center that they have provided their address and phone number to residents of Oriana House and will provide emotional supportive services free of charge.</p>

The residents are informed that they have the right to privacy while making a report of sexual abuse to outside agencies; however, due to state and federal mandatory reporting laws, the agency may be required to report the allegation. The residents can also find this information inside the resident handbook. The handbook states:

- Residents have the right to privacy when making a report of sexual abuse to outside agencies. Resident telephone calls will not be listened to and will be private. There are rules about resident privacy, but there are Federal, State, and local laws for reporting. Resident information will be kept as private as possible, but the facility may have to tell based on the requirements under these laws.

Case managers are required to have role clarification meeting where residents are given information on the limits to confidentiality. Residents are informed that their discussions with staff are private except when there is a risk of harm to self or others (mandatory reporting limits). The residents are informed that all information provided to a staff member, contractor, or volunteer would be immediately reported to proper authorities. The contact that a resident make with an outside emotional supportive agency or rape crisis center is limited to the specific agency's policies and procedures, and any applicable state or national laws. The case managers interviewed confirmed the meeting and the information provided to the residents.

During the tour portion of the onsite visit, the auditor used a phone in the housing unit. When first picking up the phone, the message prompts for language selection. After the language selection, the next option is for PREA. Once a resident selects the PREA option, the message then has the following prompts:

- Option #2 = Oriana House reporting
- Option #3 = ODRC reporting
- Option #4 = EVE Rape Crisis
- Option #5 = Hope and Healing
- Option #6 = SARNCO Rape Crisis
- Option #7 = Sexual Support Hotline

The call to the rape crisis hotline has selectable options for what type of support the caller needs, the auditor selected an office worker in order to discuss the services provided to the residents, if the services are free of charge, confidentiality of the information, and any mandated reporting responsibilities.

The residents report that the names and contact information for rape crisis/emotional support organizations are listed on posters throughout the facility and in the PREA materials they got at intake.

	<p><b>Auditor Discussion</b></p> <p>Agency policy 1080 requires the posting of information on how a third-party can report sexual abuse or sexual harassment on behalf of a resident on the agency website. The auditor reviewed the agency website (<a href="http://www.orianahouse.org/accreditations/prea/prea.php">www.orianahouse.org/accreditations/prea/prea.php</a>) and was able to see the posted information on how to report an allegation.</p> <p>The auditor called the hotline numbers for both the agency and outside reporting agency. The outside reporting agency's hotline number is also answered by a machine. The message also requests the caller leave detailed information about the incident and that if they so choose, they can remain anonymous. The auditor received a return phone call from an agency administrative investigator on the same day the call was placed. The outside reporting hotline option is managed by the Ohio Bureau of Community Sanctions. The auditor received a call back from the Assistant Bureau Chief, Sonya Dunlap. She reports that she ensures all reports to the hotline are reported to the agency.</p> <p>The facility has posted in conspicuous places, including areas where visitors would frequent, notices on how a person can make a third-party report of sexual abuse or sexual harassment on behalf of a resident. 	<p><b>Auditor Discussion</b></p> <p>Oriana House policy1080 requires all employees, including medical and mental health staff, to immediately report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment including third-party and anonymous reports to the Client Sexual Abuse Response Team via email. This includes allegations of retaliation for reporting incidents of sexual abuse or sexual harassment or cooperating in an investigation concerning an allegation of sexual abuse or sexual harassment and any knowledge, suspicion, or information regarding staff neglect or violation of responsibilities that may have contributed to an incident of sexual abuse, sexual harassment, or retaliation.</p> <p>Policy 1027 states that all resident information related to PREA will be maintained in a confidential manner in compliance with Federal PREA requirements. Release of information concerning PREA allegations will be done as necessary and in accordance with Federal PREA requirements.</p> <p>Policy 1005 requires states staff, without reservation, must report to the appropriate supervisor any corrupt or unethical behavior, including sexual misconduct or sexual abuse as defined by the Prison Rape Elimination Act that could affect a resident or the integrity of the Agency.</p> <p>The PREA Coordinator reviewed the process with the auditor. According to the Coordinator, the staff are to:</p> <ul style="list-style-type: none"> <li>• Immediately email the Client Sexual Abuse Response Team</li> <li>• Report any sexual abuse allegation between staff and a federal resident to the Federal Bureau of Prison’s Residential Reentry Manager</li> <li>• Documenting the allegation, including verbal reports to management staff</li> <li>• Limit the number of people who have knowledge of the allegation to designated officials who are responsible for making treatment, investigation, and other security decisions</li> <li>• Perform any first responder duties as needed</li> </ul> <p>A review of the PREA Staff Guide Book provides instructions to staff on how to report</p>

resident sexual abuse or harassment. The guide speaks to the agency's responsibility of creating a culture where residents feel safe to report sexual abuse or sexual harassment without the fear of retaliation. The book provides a phone number, email address, and required reporting form.

Staff are also required to sign and date an acknowledgement of receiving the following information:

- Client confidentiality
- Code of ethics
- Employee discipline
- Clients rights and grievance procedure
- Ethics and accountability
- PREA annual acknowledgement

The agency uses a web base resident database system that allows the facility to assign certain rights to access information concerning residents and PREA allegations. All staff are required to submit an email for to the regional reporting email that limits the staff informed of the allegation and incident details to the administrators on the email chain.

The facility provides staff with training on how to report PREA. Staff are informed that they can report privately by:

- Telling your immediate supervisor
- Telling the Facility Manager or Administrator
- Filling out the PREA reporting form
- Calling the PREA hotline
- Emailing the incident details to the designated reporting group based on the facility's region

Staff interviewed during the onsite visit report to the auditor that they are mandated to immediately report any, knowledge, or suspicions about sexual abuse, sexual harassment, or retaliation. They state they will report to their supervisor or through the email designed to report directly to the PREA Coordinator and investigators. Staff report they are expected to keep things confidential, only sharing details with people who absolutely need to know for safety, treatment, or investigation purposes. When a resident makes a verbal report, staff are expected to respect their privacy while still making sure everything is properly documented.

The facility does not accept residents that are under the age of 18 and does not have a duty to report to child protective services. The State of Ohio does not require institutions or facilities licensed by the state in which a person resides as a result of voluntary, civil, or criminal commitment to report to adult protective services (Chapter 5101:2-20 and 5101:2-20-01).

<b>115.264</b>	<b>Staff first responder duties</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	Oriana House policy 1080 outlines first responder duties for any allegation of sexual

abuse. The policy instructs first responders to:

- Separate the alleged victim and abuser
- If there is a crime scene, preserve and protect it by clearing all residents and unnecessary staff from the area until law enforcement can assume responsibility of the crime scene
- If the abuse occurred within a time period that still allows for the collection of physical evidence, request the alleged victim not take any action that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating.
- If the abuse occurred within a time period that still allows for the collection of physical evidence, do not allow the alleged abuser to take any action that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating
- Staff shall not collect evidence or disturb the crime scene as much as possible

In addition, the required first responder steps mandated by this standard, the policy also requires first responders to:

- Staff shall immediately notify, by telephone, Management staff following the internal chain of command and shall notify by telephone the Clinical Director.
- Management staff will contact appropriate law enforcement and notify the Client Sexual Abuse Response Team appropriate to the designated region via email.
- If the Clinical Director is on the premise, they will assess the resident to determine services and support needed. If a sexual abuse incident occurs outside of normal business hours, and the Clinical Director is not available, the Clinical Administrator will assess the resident via telephone to determine services and support needed.
- Residents who request to talk with a counselor immediately will be referred to emergency mental health services (Rape Crisis Center of Medina and Summit Counties). Residents who request to see a mental health counselor but state their need is not immediate will be seen by the facility crisis counselor the following business day and referred for appropriate services.

During the onsite visit, the auditor was able to review the PREA Staff Guide Book that is located at all main post. The book contains:

<b>115.267</b>	<b>Agency protection against retaliation</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Policy 1080 requires the facility to protect all residents and employees who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or employees. The facility does this by employing multiple ways to protect, such as dorm changes, housing unit changes, transfer to another facility, or if applicable placed on electronic monitoring. The facility can also transfer staff members to a different facility or place on administrative leave.</p> <p>The report will include periodic status checks, and a review of the resident's disciplinary records, housing, program changes, or negative performance reviews and reassignments of staff. The report will be sent to the appropriate facility and administrative team members. Residents that are on 90-day retaliation monitoring will also be placed on the facility "whereabout" checklist at an increased rate. The auditor was shown the process and the facility whereabouts checklist and identified high risk residents with increased whereabouts checks.</p> <p>The facility uses a multifaceted approach to monitor for retaliation. The Program Administrator is responsible for conducting official monitoring and status checks. He completes a PREA Compliance Manager Activity Report, which documents meetings with the staff member or resident, any reports of retaliation, the need for emotional support services, and any related disciplinary actions, housing unit changes, negative performance reviews, or staff reassignments. The Program Administrator stated that the PREA Coordinator provides the monitoring form, and that meetings with residents or staff are conducted privately. Completed reports are submitted to the designated regional client sexual abuse email for review.</p> <p>In addition, security staff assist with retaliation monitoring by conducting increased whereabouts checks on the resident. The Lead Resident Supervisor explained that security staff are not provided with details of the investigation or any confidential information. Staff are simply made aware that the resident has been placed on an increased monitoring list, signaling them to be more observant of the resident's interactions with others. Any concerns or unusual behavior observed are documented and reported directly to the Program Administrator.</p> <p>The Clinical Coordinator reports to the auditor that she will conduct status checks during one on one sessions weekly. She would assess any changes and any concerns that the resident had concerning their safety and/or retaliation. The facility provided the auditor with a completed retaliation monitoring form used with a resident that was the victim of staff sexual misconduct. No retaliation was reported.</p>

115.271	Criminal and administrative agency investigations
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Policy 1080 requires an administrative investigation on any allegation of sexual harassment and sexual abuse. This includes allegations received through third-parties or anonymous reports. If the allegation is of sexual abuse/assault or appears to be criminal in nature, the Sexual Abuse Response Team will promptly refer the allegation to the Akron City Police Department. In instances of sexual abuse or sexual harassment that are not criminal in nature, the facility shall gather and preserve direct and circumstantial evidence, including any physical and electronic data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints, and reports of sexual abuse/sexual harassment involving the suspected perpetrator.</p> <p>The policy requires the facility to document the investigation in a written report that is retained by the administrative investigators for as long as the alleged abuser is an Oriana House resident, or is employed by Oriana House, plus five years.</p> <p>The Oriana House investigative form includes the following information:</p> <ul style="list-style-type: none"> <li>• Name of all victim, witnesses, and abusers</li> <li>• Names of staff working during incident</li> <li>• Date, time, and location of incident</li> <li>• Type of incident</li> <li>• How the incident was reported</li> <li>• Description of incident</li> <li>• Medical and/or counseling treatment (SANE services/Rape crisis)</li> </ul>

- Statements from all available sources
- Separation from abuser
- Increased supervision
- Transfer to another facility
- LGBTI status
- Gang affiliation
- PREA Screening Status
- Law enforcement referral
- Parent agency notification
- Interpreter services
- Video evidence available
- Physical barriers
- Investigation determination
- Disciplinary action

The auditor reviewed the training curriculum and certificates of completion for all administrative investigators. The PREA Coordinator and VP of Administration and Legal Counsel have also received administrative investigator training. The training was conducted by the Moss Group and included techniques for interviewing sexual abuse victims, proper use of Miranda and Garity warnings, sexual abuse evidence collection in a confinement setting, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.

The administrative investigators reported the following methods of investigating an allegation:

- Trauma informed victim interviews
- Witness interviews
- Staff interviews
- Alleged abuser interviews
- Reviewing video evidence
- Reviewing past incident reports if available
- Credibility assessments based on documented behavior
- Consultation with other investigators/PREA Coordinator if necessary

The process of investigation, referral, and outcome determination was described to the auditor. The PREA Coordinator states that the agency prohibits administrative investigators from requiring a polygraph examination or other truth telling device during an investigation. She states that all investigators are also prohibited from conducting any type of criminal investigation. All criminal investigations are conducted by the local legal authority, and the administrative investigators will remain in contact with the criminal investigators in order to remain informed about the progress of the investigation. The PREA Coordinator and policy state that the departure of the alleged abuser or victim from employment or control of the facility or Agency shall not provide a basis for terminating an investigation.

The investigators state that they are not to question a suspected abuser during a

	<p>criminal investigation. The administrative investigation would only begin at the conclusion of the criminal investigation or with the permission of the legal authority. The investigators report that they would remain in contact with the legal authority to keep abreast of the criminal investigation. The investigators report that they are responsible for maintaining and securing investigation reports for as long as the abuser is incarcerated or in the case of staff abusers until the employee is no longer employed, plus five years for both cases.</p> <p>Review:</p> <p>Policy 1080</p> <p>Investigation Report</p> <p>Interview with PREA Coordinator</p> <p>Interview with Administrative Investigators</p>

**Auditor Discussion**

Policy 1080 states that following an investigation into a resident's allegation of sexual abuse, the facility will inform the resident whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. If the agency did not conduct the investigation, the facility will request the information from the investigatory agency in order to inform the resident. The facility will also notify the resident whenever:

- The employee is no longer working at the resident's assigned facility
- The employee is no longer employed by the agency
- The agency learns the employee has been convicted on a charge related to sexual abuse within the agency
- The agency learns the alleged resident abuser has been indicted on a charge related to sexual abuse within the facility
- The agency learns that the alleged resident abuser has been convicted on a charge related to sexual abuse in the facility

All such notifications or attempted notification are documented in the agency's resident database system. The obligation to make such report under this standard shall terminate if the resident is release from the agency prior to an investigation determination.

The facility had two allegations during the past audit cycle. During the time of the onsite visit, one allegation was still pending. The resident involved in the other allegation received notification of the allegation outcome. The facility documents this on the PREA Sexual Abuse Victimization Notification report, and the resident signs and dates acknowledgement of the notification. The facility provided the auditor with a copy of the notification form. The resident received notification but refused to sign acknowledgement.

The PREA Coordinator tracks all investigations to ensure each requirement of the PREA standards have been completed after the report of an allegation. The checklist includes:

- Date allegation was received
- Allegation type
- Confirmation of first responder duties
- Type of investigation initiated
- Victim support person notified
- Notification to Ohio Department of Rehabilitation and Correction
- Completion of rescreening
- Investigation completed
- Victim Notification Sent
- Incident Review Completed/date
- 90-day Retaliation Monitoring

	<p>The checklist ensures the process of notifying the resident is not forgotten. The PREA Coordinator documents when the notification was given to the resident or if the notification could not be delivered due to the victim no longer residing in the facility.</p> <p>Review:</p> <p>Policy 1080</p> <p>PREA Sexual Abuse Victimization Notification report</p> <p>PREA Coordinator checklist</p> <p>Interview with administrative investigators</p> <p>Interview with PREA Coordinator</p>

115.276	Disciplinary sanctions for staff
	<p><b>Auditor Overall Determination:</b> Meets Standard</p>
	<p><b>Auditor Discussion</b></p> <p>Policy 1080 states that employees shall be subject to disciplinary action up to and including termination for violating the Resident Sexual Abuse and Sexual Harassment Prevention policy. Policy 3037 specifically outlines employee discipline. This policy states disciplinary action may take the following steps:</p> <ul style="list-style-type: none"> <li>• Formal verbal warning</li> <li>• Written warning</li> <li>• Disciplinary probation</li> <li>• Disciplinary suspension</li> <li>• Disciplinary discharge</li> <li>• Suspension pending investigation</li> </ul> <p>Policy 3037 also states that disciplinary action may not always be progressive. The agency reserves the right to take whatever disciplinary action it deems appropriate for employee misconduct, including termination of employment for a first offense.</p> <p>The agency outlines its progressive disciplinary plan in its employee handbook. A review of the handbook states that any staff member found to have engaged in sexual abuse will be terminated. Termination or resignation by a staff member who otherwise would have been terminated for violations of the Client Sexual Abuse and Sexual Harassment Prevention, will be reported to law enforcement agencies and any relevant licensing bodies. The handbook also states that employees who have knowledge of resident victimization and do not report it will be terminated.</p>

The auditor interviewed the Human Resource Director. The Human Resource Director reports that it is agency practice to place a staff member on administrative leave during the course of an investigation. She states the agency enforces their strict zero tolerance policies by terminating employees found to be in violation of the policy, and terminating employees whose allegation was determined to be unsubstantiated but a major violation of the boundaries/integrity policy has been committed.

Employees must sign an acknowledgement of receiving the employee handbook and the agency's zero tolerance policy. Employees who have been disciplined by the agency had a Notice of Employee Disciplinary Action. The documentation listed the disciplinary charge, appeal, information, and sanction. None of the disciplinary charges reviewed were related to PREA. The auditor spoke to the Director about disciplinary action for actions that do not quite meet the definition of sexual abuse or sexual harassment. She states that the agency will terminate all employees that have a significant boundary issues with residents. She also states that employees that are in the orientation phase of employment cannot appeal a disciplinary sanction.

During the onsite visit, the auditor interviewed staff from all departments and levels, including two newer Resident Supervisors. These RS staff members recently completed academy orientation. They report that during academy, they are trained on the PREA "law"; the expectation that no sexual activity should occur between residents or between residents and staff; that volunteers, contractors, and interns are held to the same standards as staff in regard to no sexual conduct with residents. All staff report receiving this information and that this information is also reiterated in the employee handbook. All staff reported that termination is the expected outcome of violating the zero tolerance policy.

The facility did not have any allegations against a staff member in the last twelve months.

A summary of the allegation can be found in standard 115.222.

	<b>Auditor Discussion</b>
	<p>Policy 1080 states that any contractor or volunteer who engages in sexual abuse will be prohibited from contact with residents and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. The agency will take appropriate remedial measure, and shall consider whether to prohibit further contact with residents, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.</p> <p>The agency ensures that interns, contractors, and vendors are informed of the agency's zero tolerance policy. The notification states that the contracting agency agrees to comply with the PREA standards and that if at any time the facility becomes aware that the intern, contractor, or vendor is no longer in compliance with any part of the PREA standards, the facility reserves the right to deny admittance into its facility. The notification goes on to say that the agency has the right to terminate the agreement.</p> <p>The Human Resources Director reports that any contractor that engages in sexual abuse or sexual harassment will immediately be blocked from contact with residents.</p> <p>During the onsite visit, the auditor reviewed all allegations reported within the past audit cycle. 115.278	Disciplinary sanctions for residents
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Oriana House policy 1080 requires all residents to face disciplinary action up to and including termination from the program following a substantiated allegation of resident to resident sexual abuse and sexual harassment or a criminal finding of guilt for resident to resident sexual abuse. The policy requires the agency to consider whether a resident's mental disabilities or mental illness contributed to his/</p>

her behavior, the resident's disciplinary history and sanctions imposed for comparable offenses by other residents with similar histories, when determining what type of sanction, if any, should be imposed.

Agency policy does not allow for the disciplining of a resident for a good faith report of sexual abuse when there is a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation.

The policy does not allow for offenders to have consensual sexual contact; however, such conduct will not be defined as resident sexual abuse. The policy also does not allow for the discipline of offenders for resident sexual contact with staff unless the staff member did not consent to such contact.

In the resident handbook, the facility has listed Physical assaults/sexual assaults by residents or threats of assault and sexual harassment are not tolerated. The handbook also states that the agency prohibits all sexual activity between residents, which includes hugging, kissing, or touching any body part. Specifically, under the Client sexual abuse and Sexual Harassment Prevention Guide in the handbook, the agency details what is considered sexual abuse, sexual harassment, and retaliation. The handbook states that violations of the zero tolerance policy will result in disciplinary sanctions and/or criminal charges.

The PREA information sheet given to residents during orientation group. The sheet gives the residents a clear understanding of what is a good faith report of sexual abuse or sexual harassment versus a bad faith or false/misleading report. The sheet states that residents can be charged with a level three sanctions for falsification.

The auditor was able to review signed and dated acknowledgements of receiving a handbook and PREA education.

Residents interviewed during the onsite visit confirmed that they were provided PREA education at intake and during orientation group. They report watching videos that explain what PREA is, reviewing definitions, and being informed of their rights under the PREA standards. They report that during intake and during orientation they also review the resident handbook. The residents report that between PREA education and a review of the handbook, they are fully aware that a violation of the zero tolerance policy will mean being "rode out." or terminated from the facility.

The facility had one substantiated allegation of resident-to-resident sexual harassment. The facility disciplined the resident according to agency policy.

	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>

	<p>The facility offers community medical and mental health counseling services for residents who have been sexually abused in jail, lockup, or juvenile facility. Policy 1080 states that all treatment including testing for sexually transmitted disease and treatment within sixty-days to all known resident-on-resident abusers be offered free of charge.</p> <p>Should the facility become aware that a resident has previously abused another resident, the Crisis Counselor would meet with the resident to assess how to address any underlying issues. The facility does not provide treatment for known abusers. Any available services would be provided by community agencies.</p> <p>Staff are notified of the agency's PREA Medical Response Plan. The auditor reviewed the Medical Response Plan. The plan outlines how staff is to offer unimpeded access to both emergency and ongoing medical and mental health care. The PREA Coordinator states that all ongoing medical or mental health care will be at the discretion of the medical provider and is at no cost to the resident. The facility is responsible for reviewing the plan annually to ensure that all service provider information is current and that the range of services are still available. To see the details of the plan, please see standard 115.282.</p> <p>The policy also states that should a pregnancy result from sexually abusive penetration while incarcerated, timely and comprehensive information about and timely access to all lawful pregnancy related medical services will be offered.</p> <p>The auditor spoke to the Clinical Coordinator, who acts as the facility's emotional support person and counselor. She states she will provide counseling services for any resident that has experienced past sexual violence, or the resident can be referred to community services.</p> <p>The Program Administrator reports to the auditor that the facility has not housed a resident that is a known resident-to-resident abuser. 	<b>Auditor Discussion</b>
	<p>The agency post all final PREA reports for each of its facilities on the agency website. The auditor reviewed the agency website to ensure that during the previous audit cycle, all Oriana House facilities have been audited and reports posted. The agency will have 1/3 of facilities audited each year of the three-year cycle.</p> <p>The auditor interviewed staff and residents in accordance with the PREA Compliance Audit Instrument Interview Guide and the PREA Auditor Handbook’s Effective Strategies for Interviewing Staff and Resident Guide. Residents and facility staff were interviewed during the onsite visit, and agency staff were interviewed as well.</p> <p>The auditor was given full access to the facility during the onsite visit. Agency administration and facility management escorted the auditor around the facility and opened every door for the auditor. The tour of the facility included all interior and perimeter areas. The auditor was able to observe the housing units, dorms, bathrooms, group rooms, dining room, staff offices, storage closets, and administration area. The auditor was able to have informal interaction with both staff and residents during the walk through and saw how staff interacted with residents.</p> <p>The auditor received documentation on the agency and facility prior to the onsite visit through PREA OAS web based audit system. The auditor was also provided requested documentation during the onsite visit.</p> <p>The auditor reviewed electronic documentation during the onsite visit. This includes camera views and ORION resident database system.</p> <p>Appropriate audit notices were posted in conspicuous areas throughout the facility. These places included areas resident, staff, and visitors would frequent. The notices included the auditors mailing and email addresses. The PREA Coordinator emailed the auditor photos of audit notice postings. The auditor received a request to be interviewed by a resident via email prior to the onsite audit. The auditor spoke with the resident during the onsite visit, and discuss the concerns of the resident with the PREA Coordinator and facility management.</p>
