

Your Recovery Starts Here

Recovery is achievable and within reach.

At Oriana House and Rigel Recovery Services, our team of licensed clinicians, substance abuse counselors, and recovery coaches treat the disease of addiction, giving you the support and information you need to achieve and maintain a lifetime of sobriety. We also provide counseling for mental health and trauma-related needs.

Treatment services are certified through the Ohio Department of Mental Health and Addiction Services. Medicaid is accepted or costs are based on a sliding fee scale.

Our caring, professional staff are passionate about helping you get better, feel better, and reclaim your life.

Summit County ADM Crisis Center

15 Frederick Avenue • Akron • Open 24/7/365

330-996-7730

Inpatient and Outpatient Withdrawal Management (Detox)

It generally takes 5-7 days to manage withdrawal symptoms from drugs or alcohol, depending on the substance and severity of the addiction. Clients receive 24-hour support and medication as needed. Same day admission is usually available and no referral is needed.

Drop In Services

Individuals who are under the influence of alcohol and/or other drugs can safely recuperate while being monitored for withdrawal symptoms until the effects of the substance have dissipated.

The ADM Crisis Center is funded by the County of Summit Alcohol, Drug Addiction, & Mental Health Services Board for residents of Summit County.

Outpatient Addiction and Mental Health Treatment

Assessments A comprehensive behavioral health assessment is used to identify an individual's needs and determine the best treatment plan for overall success in recovery.

Intensive Outpatient Treatment Treatment groups meet several times each week and help participants understand the disease of addiction, manage triggers and cravings, facilitate lifestyle changes, and access resources that support recovery. Individual counseling focuses on personal goals. Specialized treatment concentrating on trauma, sexual health, anger management, parenting, and other areas helps address specific topics. Sessions can be conveniently scheduled.

Day Programming Participants spend four days each week with clinicians, recovery coaches, and other supportive staff. Programming includes intensive treatment groups, mental health counseling, medication assisted treatment as needed, and meetings to further individualize recovery goals. (Also known as a Partial Hospitalization Program.)

Medication Assisted Treatment Medication combined with counseling and behavioral therapies can eliminate opiate cravings to help people focus on treatment and sustain sobriety.

Recovery Coaches Recovery coaches are familiar with the different pathways to recovery and help find what works best. They meet one-on-one with individuals in recovery to assist in the journey, offering personal experience of living in recovery.

Family Matters Free meetings for loved ones provide education on addiction and developing skills that support recovery. Participants discover they are not alone as they learn how to interact in ways that are best for them and their loved ones. For location and reservations, call 330-996-2222.
